US

Please read these instructions carefully before using this safety clothing. You should also consult your safety officer or immediate superior with regard to suitable garments for your specific work situation. Store these instructions carefully so that you can consult them at any time.

Refer to the garment label for detailed information on the corresponding standards. Only standards and icons that appear on both the garment and the user information below are applicable.

ANSI/ISEA 107-2015
American National Standard for High Visibility Safety Apparel and Accessories

Classifications (ANSI/ISEA 107-2015)

X - Type of garment suited for work environment

Y - Class for the fluorescent and reflective surface

X Type O Off-Road and Non-Roadway Use
Type R Roadway and Temporary Traffic Control Zones
Type P Emergency, Incident Responders, Law Enforcement Personnel

Y Class 1 Minimum level (Type O only)
Class 2 Intermediate level (Type R and P)
Class 3 Highest level (Type R and P)
Class E Supplemental Item

Z Indicates Flame Resistance 'FR' or 'Not FR'. This garment is not flame resistant as defined by ANSI/ISEA 107-2015 Section 10.5.

Limitations of use (EN ISO 20471:2013 + A1-2016, RIS 3279 & ANSI/ISEA 107-2015): Always wear the garment fastened. Keep clean: Should the High Visibility properties of this garment become irreversibly soiled or contaminated, replace with a new one. This garment is suitable for wear during an entire working day and contains no toxic substances that can affect health adversely in any other way. No allergic reactions due to skin contact with this garment are known. Do not attempt to repair damaged garments. All garments should be discarded safely. The clothing should not be altered or fitted with extra labels or logos. The clothing should only be worn in situations for which it is intended..

Limitations of use (ANSI/ISEA 107-2015):

For FR garments please refer to the FR user information sheet. Please refer to Appendix F for U.S. Federal Highway Administration recommendations for additional information. Class E garments are intended to be worn with Class 2 or 3 garments. When done so, Class 3 protection is given.

Available Size & Selection: Fit according to correct chest and waist size, refer to size chart. These garments have built in allowance for comfort and to allow the garment to be worn over medium bulky clothing.

Storage: DO NOT store in places subject to direct or strong sunlight. Store in clean, dry conditions.

After-care: After care (ANSI/ISEA 107 2015): Garments have a limited lifetime that will vary depending on the item and use. Garments should be periodically evaluated to ensure performance level to ANSI/ISEA 107 2015. As a guide, garments that are worn daily should be checked every 3 months or after no more than 25 washes. Garments that are worn less than daily should be checked every year or after no more than 25 washes. Garments should be compared to a new garment to ensure its continuing suitability. Additionally, inspect garments for damage to fabric or tape, excessive soiling or abrasion before each use.

Fibre Content Label: Refer to garment label for corresponding content details.

Warning: Where there is a hood, peripheral vision and hearing may be impaired.

Retroreflective tape and labels: Retroreflective tape or labels should not be ironed! Please refer to the garment label for the number and wash cycles claimed. The stated maximum number of cleaning cycles is not the factory related to the lifetime of the garment. The lifetime will also depend on usage, care, storage, etc. Garments should be discarded when the protective qualities no longer apply e.g. 1. Maximum number of washes is reached. 2. The material has been damaged either by fading or has been torn. 3. The reflective qualities of the tape have faded. 4. Garment is permanently soiled, cracked, burned or heavily abraded.

Wash Care Labels: Refer to garment label for corresponding washing details.
